Maclean Computing Ltd
PO Box 90 400
AUCKLAND

Attn: Mr Allan Maclean

Dear Allan

Although it is uncommon for me to do so, I felt compelled to formally convey my appreciation of your company's efforts in seamlessly executing our recent migration and for the level of service subsequently provided.

We contacted Maclean Computing to help us migrate to a new IT infrastructure, as our old infrastructure was becoming obsolete.

On the advice of Maclean Computing we implemented a virtual infrastructure and a desktop refresh running Microsoft Vista and Microsoft office 2007.

This was not a small undertaking for us and we placed considerable faith in Maclean Computing delivering as promised. Our faith was not misplaced.

Maclean Computing worked with us to understand our business requirements and implemented a technology solution that is perfect for both our current and future needs.

Throughout our working relationship I have been continuously impressed with the level of service provided by Maclean Computing.

Personally I have found both Craig Murphy and Jeff McLuckie extremely knowledgeable and great to deal with.

I have already recommended Maclean Computing to others and will happily continue to do so.

Yours faithfully

Marty Haydon
General Manager
